

**Mitigation : NC CARE Bill**

<b>NC Hospital Association :</b>	Added a physician other than a Radiologist to the Commission. <u>§ 90-740. B - 1 0</u> Added that a student be given 1 year upon graduation to obtain their registry and license. <u>§ 90-744 C</u> Exempts the student during clinical education. <u>§ 90-738 B 5</u>
<b>NC Podiatry Society:</b>	In addition to ARRT limited license registry the Commission would accept the podiatric credentialing bodies. <u>§ 90-743 D</u>
<b>NC Chiropractic Society:</b>	In addition to ARRT limited licenses registry the Commission would accept the chiropractic credentialing body. <u>§ 90-743 C</u>
<b>NC Dental Society:</b>	The bill recognizes the licenses of a Dental Assistant I and II as well as a Registered Dental Hygienist (RDH) and exempts them from an additional license. <u>§ 90-738 B2 &amp; B3</u>
<b>NC Veterinary Medical Association and NC Medical Society:</b>	The bill exempts procedures on non-humans (animals) and cadavers (research). <u>§ 90-738 - 8</u>
<b>Limited License:</b>	Gives more avenues for specialty clinics such as Chiropractic and Podiatry to obtain licenses without adding more school or expense to the licensee. (32 other states offer this as well) <u>§ 90-743 B</u>
<b>Grandfather Clause:</b>	Allows people currently performing radiologic imaging to continue and gives them 5 years to obtain a license. <u>§ 90-752 Section 3</u>
<b>International MR Society:</b>	Includes MR by request of this society due to the dangers on the magnet and hybrid images approved by FDA.
<b>American Registry for Diagnostic Medical Sonography (ARDMS) and NC Society of Diagnostic Medical Sonography (NC SDMS)</b>	Sonography has been excluded from the bill by request of these societies on the bases that they do not deliver radiation.
This bill recognizes that the profession of a radiologic technologist and radiation therapist is constantly changing with new technologies; Therefore requiring continuing education of the personnel working in these professions and giving the commission room to adapt as new technologies develop.
